

Series 2601

Zetco AGA Approved Cast Iron Flanged Ball Valve 200mm

DESCRIPTION

A flanged cast iron ball valve AGA approved to AS 4617 (Approval #6633 Type 1 - Isolation Valve). Double stem o-rings provide dynamic sealing to prevent leakage and carbon-reinforced PTFE ball seals ensure smooth reliable operation. Suitable for a range of applications, the full and straight bore minimises head loss and reduces turbulence during operation.

FEATURES

Design	Investment cast body and flange in cast iron				
	Epoxy coating prevents corrosion, tuberculation and surface wear while promoting efficient flow of fluids				
	Reinforced PTFE ball seals for consistent operating torque				
	Lockable lever handle for added safety and security				
	Blow-out proof stem to prevent leakage				
Production	Manufactured in Italy under ISO 9001 Quality Management System				
	All valves are pressure tested during production				
Technical	Flanges drilled to ANSI B16.5 150 os AS 2129 Table D/E				
	Flow capacity: Full bore				
	Flow control: On/off only, not intended for throttling				
	Temperature range: -20°C to 70°C				
	Max. pressure: 1600 kPa (refer to graph)				
	NOTE: Not suitable for buried installations				
Options &	Size: DN200 (8")				
Variants	Series 2601 AGA approved ductile iron flanged ball valve				
	Series 2602 AGA approved ductile iron flanged underground ball valve				
	Series 2603 AGA approved ductile iron flanged lockable ball valve				
	Series 2607 WaterMarked bronze flanged ball valve lockable
